09:00 – 18:00 Seminar

18:30 – 21:00 Concert and Apéro riche

ECPM
European Center of Pharmaceutical Medicine

ADVANCED STUDIES

Invitation

We cordially invite you to the seminar and the thirtieth anniversary celebration of ECPM, the European Center of Pharmaceutical Medicine.

Key stakeholders from the health care system will look back on learnings and challenges in medicines development. This includes the perspective from industry, academia, regulatory authority, and the clinical setting.

In the afternoon, we will revisit the milestones in the history of ECPM. We are particularly proud to welcome our founding members, and many distinguished representatives from the Pharmaceutical Industry, the Swiss Regulatory Authority, the University and the Government.

Our core competency and passion are to train and to further develop students and

postgraduate specialists in pharmaceutical medicine/drug development. It is of high importance for future and current employers in the health care system to recruit highly qualified collaborators. Thus, the topic of “How to Develop Talents and Competencies” is timely and will be elaborated in a panel. The voices and the experience of alumni will also be presented.

In the evening, we will celebrate with a classical concert of the Academic Orchestra Basel conducted by our director Prof Thomas D. Szucs followed by an apéro riche enabling the exchange among the course participants, guests, advisory board, and faculty.

We would be delighted to meet you and your colleagues and to celebrate the 30th anniversary of ECPM

With kind regards,
